

Cookie Policy

Last updated: 27 August 2025

- Essential: required to deliver the site and protect it (e.g., session, security, load balancing).
- Analytics: help us understand traffic and improve the site.
- Media/Embedded & Social: enable playback of embedded players (Spotify, SoundCloud, Mixcloud, YouTube) or social features.
- Marketing: used for advertising or cross-site tracking (not used unless stated and consented).
- Essential cookies run by default and cannot be turned off through the banner because the site won't work without them.
- Analytics and Media/Social cookies run only if you give consent in the banner or preferences panel.

3) Consent management We use Google Tag Manager (GTM) and may implement Google Consent Mode v2 to respect your choices. GTM does not set cookies by itself; it loads tags based on your consent. You can review or change your consent at any time via the “Cookie settings” link in the site footer (or your browser settings).

- Name: session_id / XSRF-TOKEN (first-party) — Purpose: session, security — Duration: session–24h
- Name: __cf_bm / __cfuid (if Cloudflare is used) — Purpose: bot management — Duration: 30 minutes
- Name: _ga (Google Analytics) — Purpose: distinguish users — Duration: up to 2 years
- Name: _ga_* — Purpose: session state — Duration: up to 2 years
- Provider cookies from spotify.com, soundcloud.com, mixcloud.com, youtube.com — Purpose: enable playback and measure usage — Duration: per provider policies

Note: The exact set of cookies may change as we update our stack. We will keep this table reasonably up to date.

- Banner/preferences on this site: use “Cookie settings” to change or withdraw consent.
- Browser controls: you can block/delete cookies in your browser. See help pages for Chrome, Firefox, Safari, Edge.
- Global Privacy Control (GPC): where supported, we aim to respect GPC signals as a withdrawal of consent for non-essential cookies.

6) Contact Questions about cookies: contact@klixdj.be
